Agriculture College Bikaner was established in 1988, its initial beginning was in Dungar College, after that it was transferred to KVK Bikaner Biotechnology and Guest House, after that in 1995 it was shifted to the newly constructed building at Beechwal village, Sriganganagar highway.

At that time there was a provision of 40 students in graduation, which has now increased to 120. Apart from this, in the year 1995, education was started in the postgraduate subject in Agricultural Economics and in the year 1997, the post-graduate in agronomy and in 1999 in the same subject with PhD, post-graduation in almost all subjects. And after that education started for PhD. I am glad myself that I am the first batch student of Agronomy and posted in this department.

The COA Alumni Meet was held for the first time in the year 2020 on 26th December through online mode during covid - pandemic and in this year 2023, with blessings of the Vice Chancellor Dr. Arun Kumar, it is scheduled to be held in a grand manner on August 1th in the university premises and college

Other colleges of Rajasthan, which are much older than ours Agriculture College, Bikaner, and students of our college have done renowned work in agriculture, administration and private sector and raised the name of their family and college. The main reason of making a name for himself as well as the college is due to teaching system of the College, administration of university as well as the adverse climatic conditions of Bikaner.

Even at present, the activities and education system of the college is pioneer, due to which in the last decade, the students from this college are excellent in every category of higher education, government and private jobs as well as in their business.

In this sequence, I wish for a bright future and better health of the students of Agriculture College, Bikaner.

Dr P.S. Chauhan
